CHILDREN AND YOUTH

Massachusetts Service Alliance

Massachusetts Youth Council Initiative

- Program:** The Massachusetts Service Alliance has announced the availability of funding from the Corporation of National and Community Service for the Massachusetts Youth Council Initiative. Funded Youth Councils will assess the needs of their community; develop, select, and fund applications for community service-learning projects that address those community needs; and then monitor and evaluate the chosen projects. Funded organizations will partner with a local government agency so the youth council participants will be able to learn about how decisions are made on a local level and the role their grants play in the larger community context. The goals of the initiative are to provide:
- An opportunity for youth to learn about philanthropy, grant making, and local government.
 - An opportunity for youth to participate in a hands-on, structured, activities to encourage future civic participation.
 - An opportunity for members of the community to identify community needs and design community service-learning projects to meet those needs

EDUCATION

EdVestors & the Fund for Nonprofit Partnerships

Request for Concept Papers for School Improvement Projects

Program: EdVestors Urban Education Investment Showcase and the Fund for Nonprofit Partnerships in the Boston Public Schools have announced the merger of the two organizations and have issued a joint Call for Concept Papers for 2004 grants for school improvement projects in Boston or Lowell. EdVestors Urban and the Fund for Nonprofit Partnerships will support school-based initiatives aimed at strengthening teaching and learning in urban schools and improving student academic achievement through professional development, curriculum development, student programs, or family engagement. Applications must outline school-based programs or services that are solidly grounded in best practice research regarding what works in urban education, and that pilot, implement, or expand effective models of demonstrated excellence in improving student academic achievement. Applicants may propose multi-school initiatives that impact students or educators in more than one school or setting, as well as single-school initiatives that implement models with strong potential for replication or expansion over time. Start-up or early-stage projects as well as more established initiatives are welcome to apply. A broad range of proposed activities will be considered, including:

- Professional Development for Teachers or School Leaders: Coaching, mentoring, and peer networks; recruitment and retention of teachers and school leaders; and other initiatives focused on teacher quality and professional excellence throughout the career of a teacher.
- Classroom Projects and Instructional Strategies: Programs and curricula that incorporate effective teaching strategies, and engage students in meaningful projects for learning in one or more subject areas such as literacy, math, science, arts, and technology. Arts initiatives that strengthen student learning are a particular interest for some donors.

For more information about the Funding Update, contact Lauren E. Wood at (617) 635-3817, or join the Funding Update by e-mailing join-funding_update@listserv.cityofboston.gov. Also view the Funding Update on the City of Boston's webpage at <http://www.cityofboston.com/intergovernmental/>

- **Support Services:** Services and strategies that contribute to student learning, including school climate and initiatives that involve families and community stakeholders within the life of the school. Examples include family engagement initiatives, safety net programs, as well as school-based before- and after-school programs, and in particular models for extending the school day in innovative ways that focus on student well being and achievement.

Successful applicants likely will share the following key features:

- Propose school-based activities that support whole school improvement aimed at improving student performance in one or more urban schools;
- Align with school, district, and/or statewide Curriculum Frameworks, and with school reform initiatives in the relevant school district;
- Utilize approaches of promising or proven effectiveness that enhance the learning environment for children and improve educational results;
- Implement models or strategies that can be adapted, replicated in other schools or settings, or expanded effectively to benefit larger numbers of children over time;
- Articulate clear intended outcomes, and a strategy for documenting them, or a plan to get there; and
- Benefit from strong and effective leadership.

Funds:

Total funds available: \$700,000

Range of grants: \$20,000 to \$40,000

Deadline:

October 24, 2003

Eligible:

Single schools, groups of schools, school districts, or nonprofits working in close collaboration with one or more school partners, serving students in pre-kindergarten through grade 12. Office of Postsecondary Education

Fund for the Improvement of Postsecondary Education – Comprehensive Program

Program: The Fund for the Improvement of Postsecondary Education provides grants for a wide variety of activities to improve postsecondary education opportunities in four specified priority areas:

1. Projects to improve the quality of K-12 teaching through new models of teacher preparation and through new kinds of partnerships between schools and colleges and universities that enhance students' preparation for, access to, and success in college.
2. Projects to promote innovative reforms in the curriculum and instruction of various subjects at the college preparation, undergraduate, and graduate/professional levels, especially through student-centered or technology-mediated strategies, and including the subject area of civic education.
3. Projects designing more cost-effective ways of improving postsecondary instruction and operations.
4. Projects to support new ways to ensure equal access to postsecondary education and to improve rates of retention and program completion, especially for underrepresented students whose retention and completion rates continue to lag behind those of other groups, and especially to encourage wider adoption of proven approaches to this problem.

HEALTH

Robert Wood Johnson Foundation Depression in Primary Care Value Research Grants

Program: Depression in Primary Care: Linking Clinical and System Strategies is a national program of the Robert Wood Johnson Foundation designed to increase the use of effective treatment models in primary care settings for patients with depression. The Value Research Grants component of the program supports analyses of barriers to treatment and the development of strategies for improving the quality of care. The program will make awards in two separate categories: smaller grants of less than \$100,000 for projects to be completed within twelve to twenty-four months and larger grants of \$100,000 to \$300,000 for projects to be completed within twenty-four months. Grant awards will be provided for research projects that increase the understanding and development of sustainable strategies to overcome barriers across or within key stakeholder groups, such as patients, healthcare providers, office practices and delivery systems, health plans, and public and private purchasers; assess the value of providing quality care for depression in primary care settings; and demonstrate how that value can be best achieved and documented.

Funds: Total funds available: \$2.5 million
Grant size: up to \$300,000

Deadline: Large grants: November 3, 2003
Small grants: November 17, 2003

Eligible: Researchers or practitioners from nonprofit and for-profit managed-care organizations, office practices and delivery systems, academic institutions, or research organizations; preference will be given to applicants from nonprofit organizations that are tax exempt or are affiliated with public-private partnerships.

HOMELESSNESS

The Boston Foundation, the Starr Foundation of New York, Tufts Health Plan, and the Massachusetts Medical Society & Alliance Charitable Foundation Homelessness Prevention Initiative

Program: The Boston Foundation, the Starr Foundation of New York, Tufts Health Plan, and the Massachusetts Medical Society & Alliance Charitable Foundation have announced the release of a Request for Proposals in connection with the Homelessness Prevention Initiative, a joint funders collaborative. In the spring of 2003, a collaborative of local funders established the Homelessness Prevention Initiative as a project focusing attention and resources on the issue of homelessness prevention. This new effort will support and disseminate the most promising strategies to prevent homelessness among families and single adults in Massachusetts. The Homelessness Prevention Initiative seeks to be a valuable partner with the state, advocates, and providers to offer critically needed data about prevention program models that enable families and individuals to remain in housing and avoid the emergency shelter system, or worse, life on the streets. The Initiative is the philanthropic community's effort to champion the cost-effective strategy of prevention, employing a multi-pronged approach that seeks to demonstrate the effectiveness of a spectrum of programs—including those that focus on adults, on families, and on a wide variety of circumstances that can place people at risk, such as domestic violence, substance abuse, mental illness and exposure to trauma, release from custodial or therapeutic institutions, aging out of foster care, and financial reversals.

The Homelessness Prevention Initiative will distribute \$1 million to support programmatic efforts that:

- Incorporate the needs and circumstances of the target population they are designed to assist;
- Advance the implementation of evidence-based models, methods, capacities, and/or services that have proven to help individuals or families avoid becoming homeless and achieve long term housing stability; and
- Produce outcomes that are likely to inform future priorities of state agencies, private funders, providers and/or advocates.

The Initiative will work with its grantees to measure project outcomes and to publish and disseminate this information in order to advance knowledge and to work closely with policymakers to ensure that effective prevention strategies become an integral part of the public sector's ongoing efforts to end homelessness for all populations.

Grants will be awarded through the Homelessness Prevention Initiative in three program areas:

- 1) Direct assistance and stabilization;
- 2) Discharge planning and placement for those being released from care or custody; and

For more information about the Funding Update, contact Lauren E. Wood at (617) 635-3817, or join the Funding Update by e-mailing join-funding_update@listserv.cityofboston.gov. Also view the Funding Update on the City of Boston's webpage at <http://www.cityofboston.com/intergovernmental/>

3) Supportive housing services.

In addition to the direct service delivery that may be involved in programs for which support is being requested, the Initiative will give priority to programs that help advance knowledge of what works in the area of prevention.

Tufts Health Plan and the Massachusetts Medical Society & Alliance Charitable Foundation will fund programs focused on preventing homelessness of mothers and their children by supporting direct mental health services as well as psycho-social and psycho-educational interventions that are family-focused, trauma sensitive, and linguistically and culturally appropriate. Requests for these funds may fall under the Discharge Planning or Supportive Housing sections of the RFP and target services to mothers, children, or both. Programs could focus on women and children in domestic violence, substance abuse, or mental health programs, or women and children at high risk of becoming homeless who are not already in the emergency homeless shelter system.

- Funds:** Total funds available: \$1 million. The initiative will distribute \$700,000 from the Boston Foundation and the Starr Foundation and \$300,000 from Tufts Health Plan and the Massachusetts Medical Society & Alliance Charitable Foundation.
Range of grants: \$25,000-\$100,000
- Deadline:** October 27, 2003
- Eligible:** All applicants must be non-profit tax-exempt organizations and must serve the Greater Boston area. Collaboratives and individual not-for-profit agencies are eligible to apply for Tufts Health Plan/Massachusetts Medical Society, Boston Foundation/Starr Foundation funds. Intermediaries are eligible for Boston Foundation/Starr Foundation funds only.
- Information:** Cindy Rizzo, Program Officer, Homelessness Prevention Initiative, The Boston Foundation, 75 Arlington Street, 10th Floor, Boston, MA 02116, Telephone: (617) 338-3934, Fax: (617) 338-1606, E-mail: ctr@tbf.org, Link: www.tbf.org

Social Security Administration

Homeless Outreach Projects and Evaluation

- Program:** The Social Security Administration is making cooperative agreement funding available to demonstrate methods to improve the quality of assistance that medical and social service providers give to homeless individuals who file claims for Social Security benefits. The projects are shaped by knowledge about effective outreach practices, as well as evaluation data from previous outreach demonstration projects. Awardees of cooperative agreement funding will be required to provide outreach, supportive services, and benefit application assistance to chronically homeless adults and/or children. The target population for these projects is homeless individuals who are members of under-served groups, which may include people with severe and persistent mental illness, HIV infection, limited English proficiency, multiple and co-occurring disorders, or cognitive impairments, as well as homeless veterans with disabilities. Applicants must have existing expertise and capacity to conduct outreach activities to locate and engage homeless individuals; be able to provide or arrange for health care services; and be able to provide culturally competent services to all

members of the target population, without regard to race, sex, religion, or disability.

Funds: Total funds available: approximately \$6.5 million
Grant size: up to \$200,000 annually

SPORTS

The Women's Sports Foundation

The Boston Girls' Sports Physical Activity Project

Program: The Women's Sports Foundation has announced a new initiative to enhance the sporting lives of girls in the Boston community. The Boston Girls' Sports and Physical Activity Project was created to:

- Increase the number of girls participating in sport and physical activity programs in Boston, including those served by grassroots and community-based programs;
- Improve the quality and diversity of offerings; and
- Develop a network of programs that will sustain programming in the future.

The Boston Girls' Sports and Physical Activity Project will fund programs that serve girls who are economically disadvantaged, are underserved by quality sport programs, and are subject to the development of risky health behaviors. Founded in 1974 by Billie Jean King, the Women's Sports Foundation is a national charitable educational organization seeking to advance the well-being and leadership skills of girls and women through sports and fitness. The Foundation's Participation, Education, Advocacy, Research, and Leadership programs are made possible by gifts from individuals, foundations and corporations.

Funds: Total funds available: \$200,000
Range of grants: \$15,000 to \$25,000
Number of awards: up to 10

Deadline: October 31, 2003

Eligible: Nonprofit organizations or programs sponsored by a local community foundation or nonprofit. Organizations must administer sport and physical activity programs operating in 2004 and must serve girls in the cities of Boston, Cambridge, Somerville, or Chelsea.
